ATTENTION:

We strongly recommend that this product is installed by a qualified motorcycle mechanic. If you have any doubts as to your ability to perform this installation, please consult with a dealer or repair shop. Be sure to read all instructions before starting installation. Be sure the motorcycle is secure and stable throughout the entire installation.

Installation Instructions:

1. Install head pipes on motor loosely
2. Install collector on head pipes w/springs
3. Flip factory mounting bracket (with rubber grommet) to allow muffler to be mounted farther out on bike.

4. Install o2 sensor
5. Slide muffler assembly on mid-pipe with wd-40 or another lubricant until bolt hole lines up with rubber mounting hole on the frame
6. Tighten muffler assembly to rubber mount.
7. Position headers to allow for proper clearance.
8. Tighten down head pipes.
9. Tighten down muffler clamps.

This installation is complete and you are ready to ride!

Thank you for your purchase!
